

Care while you're pregnant:

- We provide innovative evidenced based care for pregnant and parenting adolescent (21 years and younger) and their families
- CAMP services are only provided to patients receiving care at University Hospital OB clinics
- Most support visits are done remotely via telephone or video for your convenience
- Assistance with Medicaid, Women Infant and Children's Program (WIC), and other assistance agencies.
- Access to social work support and resources
- Specialized mental health services
- Nutrition and breastfeeding support by a Registered Dietitian.
- Educational topics covered: Birth Control, Sudden Infant Death Syndrome (SIDS), Shaken Baby Syndrome, and Car Seats
- Connection with agencies who provide baby supplies
- Offer virtual classes including Labor and Delivery, Newborn Care and Breastfeeding

After you Deliver:

- Identify clinic for pediatric care
- Guidance on raising healthy babies

Through this comprehensive program, CAMP Family creates a safe and supportive environment to empower our patients in a time of transition through advocacy and education.
